NORTH CONWAY, N. H.
REPORTER BOOK AND JOB PRESS,
1915.

State of New Hampshire

To the inhabitants of the town of Conway, in the County of Carroll and State of New Hampshire, qualified to vote in town affairs:

You are hereby notified to meet at the town house in said town on Tuesday, the 9th day of March next at nine o'clock in the forenoon, to act upon the following subjects:

1 To choose all necessary town officers for the ensuing year and fix their compensation.

2 To see what sum of money the town will vote to raise and appropriate in addition to the sum required by law for the benefit of the town public library and how the same shall be divided.

3 To see if the town will vote to raise and appropriate a sum of money sufficient to pay for breaking roads and snowing bridges, due May 1st, 1915.

4 To see what sum of money the town will vote to raise and appropriate for repairing highways and bridges in addition to the amount required by law.

5. To see if the town will vote to raise and appropriate the sum of twelve hundred and fifty dollars ($1250.00) as recommended by the State for the maintenance of its State aid road.

6 To see if the town will vote to raise and appropriate a sum of money sufficient to obtain State aid for the permanent improvement of its highways as provided by law.

7 To see what sum of money the town will vote to raise and appropriate to defray town eppenses for the ensuing year.

8 To see what sum of money the town will raise and appropriate to defray expenses of Board of Health for the ensuing year.

9 To see if the town will vote to raise and appropriate the sum of seventy-five dollars ($75.00) to be paid Custer Post, G. A. R., for Memorial Day, May 30, 1915.

10 To see if the town wishes to take any action relative to disposing of or selling the Pest House, located on the West Side (so called) in said town.

11 To see if the town will vote to raise and appropriate a sufficient sum of money to purchase an adding machine for the use of town officers, said machine to be kept in town office, and appoint an agent to purchase same.

12 To see if the town will vote to raise and appropriate a sum of money sufficient to pay for repairing the drainage system on Kennett Street, agreeable to a petition signed by Amos Legacy and others.

13 To see if the town will vote to raise and appropriate a sufficient sum of money to rebuild the bridge in Conway, near the Red Eagle House in Albany.

14 To see if the town will vote to raise and appropriate the sum of three hundred dollars ($300.00) for the construction of a street drain from the easterly end of Kearsarge Street to connect with the drain now in operation near the dwelling house of John W. Brooks on Kearsarge street, in the village of North Conway, agreeable to a petition signed by Edwin J. Horne and others.

15 To see if the town will vote to raise and appropriate the sum of eight hundred dollars ($800.00) for the purpose of draining Main Street, North Conway, from the Sunset Pavilion to Mechanic Street, agreeable to a petition signed by M. L. Mason and others.

16 To see if the town will vote to build a bridge over that part of the Saco River near North Conway, known as "Middle River," and raise and appropriate money for same. agreeable to a petition signed by Israel C. Davis and others.

17 To see if the town will vote to raise and appropriate the sum of two hundred and fifty dollars ($250.00) for the construction of a street drain in the village of Redstone, be-

ginning on the highway leading to granite works, about 75 feet northeast of railroad crossing, and running to brook, for the purpose of draining streets at starting point and the main highway in front of Post Office, agreeable to a petition signed by R. L. Grindle and others.

18 To see what action the town will take in regard to discounting taxes paid at time of presentation of tax bill and at different intervals thereafter.

19 To see if the town will vote to raise and appropriate a sufficient sum of money to repair Saco River bridge, Conway, by constructing arch beams on north side.

20 To see what action the town will take in relation to the balances of snow roller house, Conway Center, Smith Bridge rise, Israel Davis Bridge and North Conway Police Court building accounts.

21 To see what action the town will take in relation to claims of estate of John J. Walker and Otis B. Quint.

22 To see if the town will vote to appoint an agent to dispose of and convey property now held for taxes.

23 To see if the town will vote to sell Echo Lake school house and appoint an agent to convey same.

24 To see if the town will vote to authorize the Selectmen to hire upon the credit of the town the sum of fifteen thousand dollars if needed.

25 To act upon any other business that may come before said meeting.

Witness our hands and seals at Conway, N. H., this 20th day of February, A. D. 1915.

ARTHUR R. SHIRLEY,
NATHANIEL I. CHURCHILL,
CLIFFORD H. CRAIG,
Selectmen of Conway.

TO THE VOTERS:

Attention is called to articles 5 and 6 of the warrant.

Article 5. The State Superintendent of highways estimates the cost of maintenance of present State aid road for year as follows:

Patrolman,	$ 850 00	
Resurfacing,	1300 00	
Oil,	350 00	
		$2500 00

Town is asked to appropriate $1250, and State will appropriate $1250.

If this article is passed over it is only fair to assume that the Selectmen will set aside the amount asked for from the general highway money.

Under Article 6. If the town DOES NOT vote to accept State aid, it must set aside as a Permanent Improvement fund,	$2,025 75
If State aid is desired, there must be raised and set aside (in addition to the Permanent Improvement fund) the sum of	1,012 87
Total to be raised by town if State aid is voted,	3,038 62
If State aid is accepted and voted, the State will appropriate,	$759 50

REPORT OF LIBRARIAN OF THE CONWAY PUBLIC LIBRARY FOR YEAR ENDINC DEC. 31, 1914

The Library has been open for the exchange of books 306 days, with a daily average of 28 books lent. The aggregate circulation for the year being 8,632 volumes, of which 5,238 were fiction, 3,000 juvenile, and the remainder divided

between history, biography, travels, religious and miscellaneous works. The largest circulation for any one day was 81 on March 7.

167 cards have been issued during the year, making the total number of borrowers 643. In addition to these, about 20 transient cards are in constant use.

During the year there have been placed on the shelves 234 new books; 228 from the Eastman fund, the remainder by gift of the State, Mrs. D. G. Barnes, Miss Jacobs, and others

The reading room is well supplied with the daily papers, and a goodly number of magazines provided by fines, and is well patronized, especially by the young people. Through the kindness of the publishers we have received the Reporter and The Granite State News each week. A new encyclopedia and some books of reference are needed.

ALICE S. POLLARD, Librarian

REPORT OF LIBRARIAN OF FREE PUBLIC LIBRARY, CENTRE CONWAY

The work and condition at this library is about the same as in past years. An evident fact of the appreciation of the opportunities afforded both adults and youth by the library is the large patronage during the months of long evenings especially. A loan of ninety books and between thirty and forty magazines nearly every Saturday, being sufficient proof.

The magazine table has been during the year an especially attractive feature. The eagerness with which the Out look, Geographical Magazine, Travel and Sunset are sought, shows that the minds of people are searching for something besides reading of a lighter vein.

The magazines that come regularly as gifts ate The Outlook, Christian Science Monthly, St. Nicholas, Our Fourfooted Friends, and The Reporter. We have by subscription Eveaybody's, Munsey, Red Book, World's Work, American Boy, Travel, Sunset, Geographical Magazine, Ladies' Home

Journal, Woman's Home Companion, Pictorial Review, and Children's Magazine. During the year gifts of books have been received from Miss Bessie Baird, Mrs. Comstock, Mrs. Ruth Starrett, Dr. Horne, Christian Science Society, and Mrs. Chas. Baird.

General and Mrs. Greeley have given the Literary Digest and Scribner's during their sojourn among us, and loaned bound volumes of the Geographic Magazine. Mr. Chas. Baird sends the American Museum Magazine, Journal of the New York Botanical Society, and Bird Lore.

There have been added to the shelves from the library funds 66 books and 27 gifts from friends. The circulation for the year has been, fiction, 1,616; juvenile, 802; miscellaneous, 152; a total of 2,570.

We thank all who have in various ways so kindly remembered us doing the past year.

Respectfully submitted,

ABBIE M. D. BLOUIN, Librarian

School District Treasurer's Report

To Henry B. Cotton and H. B. Fifield, auditors of the Town of Conway:

I herewith submit an account of all money received and disbursed by me as School District Treasurer for the fiscal year ending February 15, 1915.

RECEIPTS

Received balance from last year's account,	$ 2,871 25
" of town treasurer amount due schools,	22,767 16

AUDITORS' CERTIFICATE

Conway, N. H., Feb. 18, 1915

We hereby certify that we have examined the accounts of the treasurer, John E. Potter, for the fiscal year ending February 15, 1915, and find them to be correct with proper vouchers on file for each and every item paid out and the amount of balance is shown.

H. B. COTTON, }
H. B. FIFIELD, } Auditors

State of New Hampshire

To the inhabitants of the School District in the Town of Conway, in the County of Carroll, qualified to vote in district affairs:

You are hereby notified to meet at the Town House in said District on the ninth day of March, 1915, at one-thirty o'clock in the afternoon to act upon the following subjects:

1 To choose a moderator for the ensuing year.

2 To choose a clerk for the ensuing year.

3 To choose a treasurer for the ensuing year.

4 To choose a member of the school board for ensuing three years.

5 To see what sum of money, in addition to that required by law, the District will vote to raise and appropriate for the support of schools for the ensuing year.

6 To see what sum of money the District will vote to raise and appropriate for repairs on school buildings for the ensuing year.

7 To see what sum of money the District will vote to raise and appropriate for insurance and water for the ensuing year.

8 To see what sum of money the District will vote to raise and appropriate for district officers for the ensuing year.

9 To see if the District will vote to discontinue the use of the check list.

10 To see if the District will vote to sell th old school house lot at Center Conway and appoint an agent to convey the same.

11 To see if the District will ratify the action of the special committee in the new location and purchase of the lot for the new school building at Center Conway.

12 To see if the District will vote to sell the schoolhouse at Echo Lake and appoint an agent to convey the same.

13 To see what sum of money the District will raise and appropriate for ventilating the school building at North Conway and furnishing additional rooms for primary grades at North Conway and Conway.

14 To see what sum of money the District will vote to raise and appropriate for the purpose of defraying the expense of the litigation of the high school question during the year 1913 and the expenses of the building committee appointed at the annual school district meeting 1913.

15 To see if the District will vote to instruct the school board to transport the children of George B. M. Chase from his residence to the school house at Center Conway and return; agreeable to a petition signed by George B. M. Chase, S. M. Hobson and others.

16 To hear the reports of agents, auditors and committees in relation to any subject embraced in this warrant.

17 To choose agents, auditors, committees in relation to any subject embraced in this warrant.

18 To act upon any other business that may legally come before this meeting.

Given under our hands at said Conway this nineteenth day of February, 1915.

Report of School Board

SCHOOL DISTRICT OFFICERS.

Abbie M. D. Blouin, chairman, term expires 1915; Arthur H. Furber, secretary, term expires 1916; Leander C. Prescott, term expires 1917.

Another year has rolled by and we again present our annual report. We feel that our schools have, during the past year, taken no backward steps in their work, although in many of them there has of necessity been changes. We are assured that the voters of the school district are anxious that our elementary schools should be second to none, and by their generous appropriations unite with the School Board and Superintendent in their earnest efforts toward a high ideal, and we hope for your continued support and confidence.

Last year a check-list having been called for, one was prepared, printed, corrected and used at the last annual meeting. The list as used containing between fourteen and fifteen hundred names. As this incurred much labor and considerable expense we trust the district will appropriate a sum of money sufficient to pay for this, and under the article for appropriation for school district officers add sufficient to reimburse the members of the School Board for their duties as supervisors of their check list.

Except for a few minor repairs the school buildings are in good repair. The building at East Conway must have a new floor; the wood shed at the school house at South Conway needs to be shingled, as a school is to be opened there in the spring. The new building at Centre Conway is completed, equipped and in working order, and is open for your inspection and criticism.

The town as well as Centre Conway has reason to be proud of the school property, and we know that the pupils

appreciate what has been done for them, as during the past year their work in the town hall, was much handicapped, as the three teachers conducted their schools in one room a large part of the time. We again thank the town for the use of the hall. We wish to give the contractor, Mr. A. R. Ward, the building committee of which Mr. W. E. Garland was chairman, and Superintendent Knowlton a hearty vote of thanks for the deep interest they have shown in the erection of this building.

They have each and all been untiring in their efforts to give only the best to the school district for each and every dollar given into their charge.

A prominent feature was that the committee as a whole worked harmoniously and for the interest of the district, and as they receive their discharge from their duties we most cordially thank them each for their time and efforts.

For unavoidable reasons the public opening and dedication which had been planned for, had to be deferred. We trust these will be carried out when the weather is warmer.

Miss Katharine Baird has presented a nice 8x12 flag to the school which will be raised at that time. Miss Bessie Baird has hung upon the walls of two of the school rooms and the inner hall a number of pictures of art. Other acceptable gifts have been given and are to be received from Mr. and Mrs. Charles Baird, to whom we wish through this report to again voice our thanks and appreciation.

We are glad to know that the heating and sanitary facilities at the North Conway school building have at last been satisfactorily arranged, and we hope during the vacation a recitation room may be finished to relieve conditions now existing in the primary school. There is the same congestion in the primary department at Conway, and provision should be made for a class room in both of the schools. We are pleased that the principals of our three village schools have the games and sports enjoyed by the boys at heart and are at the head of organizations for sport and games and tramps of a healthful and manly nature.

Miss Cowden, the teacher of music and drawing, has labored hard for the good of the pupils and has attained good results as any careful observer can judge by a visit to our schools. She has organized Glee Clubs in several of the schools among the girls. Mrs. Garland and Miss Hill have been interested in the carrying on of clubs for instruction of sewing and embroidery. The "Gladbook" of "Pollyanna" has been studied with interest and we hope that these meetings will be the means of placing before our girls high ideals, which are the girls' greatest safeguard. The giving of these ideals should become one of the leading courses in our grade schools. The problem of entertainment and healthful exercise for the girls should be one upon which some thought and care should be spent. Let us who can be united in the idea and devise some plan by which each girl, whoever she is or where could have a good time safely.

We hope the interest in school gardens will be continued.

Bills, from the Special Committee appointed at the Annual Meeting of March, 1913, under Article 11 of the warrant, have been presented for payment as also have bills contracted by reason of litigation into which the district was thrown as the result of Article 11. Money raised for school purposes, by law, not being available a special appropriation must be made to cover these expenses.

Judgment by the court in the above suit was rendered November 28th, 1914, for the costs taxed at two hundred seventy-five dollars and forty-nine cents with seventeen cents additional, $275.66. Bill, L. P. Snow for services and expense, $844.73, and the bill from the building committee, $78.26.

Superintendent Knowlton in his report has given all necessary information pertaining to the schools and their work which need not be repeated here. We would, however, call attention to the cases of absence and tardiness. This means great loss to the pupils and a great loss to the

school district in money received from the State, as this item is based upon the attendance of the pupils.

We have been notified that the McMillan school house has been sold and the money placed in the treasury of the school district.

In accordance with chapter 52, session laws of 1909, the School Board recommend to the Selectmen that the following sums for the following purposes are necessary for the ensuing year: First, High School, tuition, $700.00: second, text books and supplies, $850.00.

Respectfully submitted,

ABBIE M. D. BLOUIN,
A. H. FURBER,
L. C. PRESCOTT,
School Board of Conway.

REPORT OF THE SUPERINTENDENT OF SCHOOLS.

Mrs. Chairman and Gentlemen of the School Board of Conway:

I have the honor and privilege to submit to you my third annual report of the public schools of Conway, it being the sixth in the series of such reports.

No radical changes have been made during the year but much effort has been used to get the regular work into shape. Owing to the resignation of all of the teachers at North Conway at the close of the year or during the summer, also the Kearsarge teacher, one at Conway and one at Conway Center, the late repairing at North Conway and the erecting of the school building at Conway Center, much of the time has been given to getting the work into shape and directing the new teachers. Nothing, as far as I am aware, has been neglected.

Some departmental work is being successfully done at Conway through the kindness of Miss Donovan, second grade teacher, who is giving daily lessons in muscular movement writing in the eighth grade and high school. It is hoped that this may be extended to the other schools.

We have two teachers in each of our primary rooms. There are two grades in the primary school at Conway and three grades at North Conway. One of the teachers has to conduct a recitation in the corridor at Conway and in the girls' coat room at North Conway. These arrangements are not satisfactory but is the best that we can do at present.

Some arrangement should be made, if possible, for another room at Conway. At North Conway, there is sufficient room in the building if it were finished off. It is almost imperative that something should be done for these beginning classes. I trust that the Board will see its way clear to remedy these conditions as soon as is possible.

The schools have had several public exercises to which the parents and friends have been invited and have attended in large numbers.

The Woman's Club of Conway gave an informal reception to which all parents and teachers were invited. Deputy Superintendent Brown addressed the meeting. The address was followed by refreshments and a social hour. This was a splendid opportunity for parents and teachers to meet and get acquainted. I wish that parent-teachers' associations might be formed. They would be a great aid in bringing parents and teachers into closer relation and both would get a better understanding of the common problem of educating and developing the child.

Miss Florence Greening, primary teacher, Toledo, Ohio, spoke to the teachers and parents at North Conway, on Sept. 29th, on moral training as brought out through the self government idea that is successfully practiced in many schools.

Dr. George Shedd, at North Conway, on May 9th, gave a talk to the teachers on diseases of children and how to recognize them. The talk was very instructive and appreciated by those teachers who accepted the invitation.

Dr. Shedd renewed his offer to perform the operation for adenoids and enlarged tonsils free to those children whose parents cannot afford to pay for the operation, the

parents, or some one else, to pay the hospital charge, as there is no hospital fund for this purpose, of $4.50. Thus far but one has accepted the offer. There are many bad cases in our schools and something ought to be done that the children affected may be able to make the best use of the talents with which they have been endowed. Besides the interference with proper respiration and the evil resulting from it, adenoids seem to affect the mentality of a child. It seems almost impossible for a child to learn. The child is often rated very low by both parents and teachers and is often the recipient of very cutting remarks by both teacher and parents because he is not able to do as well as some other child. The reason is the child cannot do. Remove the obstruction and you will usually see the child forge ahead. With some children, there is another hindrance to successful performance of the school work, viz., defective vision.

Thus far this year, we have been fortunate in not having any outbreak of a contagious disease. There was a scare in Conway, early in the fall, that caused a great many absences for a few days. We are very thankful that there was no spread of the contagion reported.

It would seem that medical inspection in our schools, would be a profitable investment. Most of the work could be done by a competent nurse, called a "District Nurse," she referring cases to the school physician when necessary for treatment. The only way to prove that this would be profitable is by trial to see if time lost is materially reduced.

Under another head is shown the loss to the district due to absences.

TRANSPORTATION.

The transportation in some sections of the town is unsatisfactory and rather difficult owing to age of children, location and road conditions. To help out some of these conditions, where there are a sufficient number of children and a school house in the neighborhood, we should open a school within walking distance of the children. If there are

a sufficient number of children, it would seem advisable to open the school in the south part of the town for the spring term and continue the same well into the summer. The fall term should be opened early in order to get the schooling in before the bad traveling and cold weather in the fall.

It will be desirable to look up the pupils coming from the Stark district to determine the advisability of opening a school there another fall.

NEW SCHEDULE.

The following schedule was adopted for the schools opening September, 1914:

The schools of Conway, North Conway and Conway Center have the morning session from 8.30 to 12 M. with a 15 minute recess near the middle of session; afternoon session from 1.15 to 3.30 with a basement period. All other schools have a six hour day with two 15 minute recesses—one in the forenoon and one in the afternoon.

JANITORS.

Mr. L. P. Allard has been our efficient janitor and the truant officer at Conway, Mr. George V. Eastman at North Conway and Dana Bemis has been janitor at Conway Center since we moved into the new building. In the other schools, either the teacher or one of the pupils has looked after the janitor work. In all cases the work has been satisfactory.

TEACHERS.

Fourteen of the teachers attended the county institute held at Jackson and six, the state teachers' association at Portsmouth. More of the teachers should make use of these opportunities for self improvement. Nearly all our teachers take one or more educational paper and some have read educational and professional books during the year.

LIST OF TEACHERS FOR 1914-1915.

Music and Drawing: Esther B. Cowden.

Conway: High school and grade eight, principal, William H. Bailey, with Alice H. Richards as assistant; grades

six and seven, Louise Dow Hill; grades four and five, Gertrude M. Cobb; grade three, Eva E. Morrison; grade two, Mary R. Donovan; and grade one, Martha B. Fifield.

Conway Center: Principal and grades seven, eight and nine, Josiah B. Kelley; grades four, five and six, Frances C. Johnson; and grades one, two and three, Elsie M. Wickens.

Redstone: Stephen T. Marshall.

East Conway: Harriet F. Woodward.

West Side: Eliza J. Hale.

Kearsarge: Bertha E. Jackson.

North Conway: High School and grade eight, principal first part of fall term, Wm. R. Johnson, Jr., balance of year, Charles H. Walker, with Madeline E. Clough as assistant; grades six and seven, Gladys A. Young; grades four and five, Gladys L. Hill; grades one, two and three, Susie E. Luce and Mildred J. Boothby, assistant.

The twenty teachers employed have preparation as follows: Eleven are graduates of normal schools; five are college graduates, two of whom hold New Hampshire teacher's certificates; six are holders of permanent New Hampshire teacher's certificates, and four are teaching for the first time.

This shows 94 4/9 per cent. of professionally trained teachers against 66 2/3 per cent. last year and 52 per cent. the year before. It is sincerely hoped that we shall always be able to hold close to this professional standard of preparation for our teachers.

We hope that sufficient wages may be paid to get and hold successful teachers of experience. One week of good school is worth more than two of an inferior class. To get and hold good teachers, we must pay them what they are worth to others or else be content with the untried and inexperienced teachers followed by frequent changes which is detrimental to any school system.

REPAIRS.

A committee was appointed to expend the money appropriated several years ago for the North Conway school

building. The committee's report is found under another heading.

A bulk-head has been put into the boiler room to make a chance to clean out ashes and to supply light to the front of the boiler. The chimney at Kearsarge has been built over, the underpinning repaired, room painted inside and the walls tinted. The walls in the grammar room and the upper hall at North Conway have been tinted. Some grammar size desks have been put into the grammar room to replace the primary desks that were there. Some of these desks have been put into the primary room to accommodate the third grade, the desks that they were using not being large enough to allow the larger boys to get their legs under.

Some of the walls at Conway have been re-tinted to remove the stains due to leaks caused by holes being burned in the roof when Mr. Kennett's barn burned. All the desks have been varnished making them look like new.

The other repairs have been of minor importance.

East Conway school house is much in need of a new floor.

NEW BUILDING.

The new school building at Conway Center has been completed and the schools moved into it on January 4th, the beginning of the winter term. The building is up to date in every particular and is much appreciated by the teachers and pupils who have been trying to do school work with three teachers in one room in the town hall.

A detailed report of this building is given by the building committee and so will not be repeated here.

HIGH SCHOOLS.

First year high school work is being done at Conway Center this year for the first time.

We are paying tuition for twenty-six high school students who are attending various schools.

At the close of the school year, Mr. A. T. Ellison, principal of the North Conway high school, resigned and Wm. R. Johnson was elected to the position. In November Mr. Johnson resigned and we were very fortunate in securing the efficient services of Charles H. Walker. Mr. Walker brought the school into line in a comparatively short time. It is now possible for more efficient work to be done in the school.

Miss Madeline E. Clough, a Colby graduate, was elected assistant.

The Conway high school has had the same efficient teachers, viz., Principal, Wm. H. Bailey and Alice H. Richards, assistant.

Both of the schools were approved last July without a question as a result of our reports and those of the State Inspector. In nearly every case, the pupils who have completed the first two years of our high school, have had no difficulty in doing third year work in other approved schools.

The schools should have in their curricula manual training, wood working for the boys and domestic science for the girls. This would then bring our course well up to date as far as we are able to go.

The reports of the principals are appended and made a part of this report.

REPORT OF THE PRINCIPAL OF THE CONWAY HIGH SCHOOL.

Mr. Alonzo J. Knowlton,
Superintendent of Schools.

The Conway Village school has been fortunate in having the same force of teachers with one exception as last year. As all at the beginning of the fall term were well acquainted with their pupils and had before worked together, it was possible to maintain a high standard of scholarship.

Miss Morrison, the new teacher, who has had much experience, is in charge of the third grade.

The total number of different high school pupils registered in September was nineteen, of which nine were members of the first class, a class not as large as that which left school last June. For the fall term there was an average membership of 16.87, an average daily attendance of 15.88, making the per cent. of attendance 94.13. There was only one tardy mark and three pupils were neither tardy nor absent.

It seems to mark an advancement in the school that all the pupils who completed the Conway High School course last June are now attending other preparatory schools as third year pupils. Some have done exceptionally good work in their studies while all have maintained a fair average.

Respectfully submitted,

WILLIAM H. BAILEY.

REPORT OF THE PRINCIPAL OF THE NORTH CONWAY HIGH SCHOOL.

MR. A. J. KNOWLTON,

Superintendent of Schools.

In accordance with your request I offer the following report of the North Conway High School for the fall term, 1914, and for the month of January, 1915.

At the beginning of the fall term the enrollment of the school was twenty-seven. After a few weeks, three boys and two girls left school, of whom, one each have since returned, so that the present membership is twenty-four.

The membership by classes is:—

	GIRLS	BOYS	TOTAL
First year,	9	6	15
Second year,	3	5	8
Special student,	1	0	1
Total,	13	11	24

The average daily attendance for the fall term was 22.76 and the per cent. of attendance 92.74.

For any cause other than sickness, absence should occur as infrequently as possible, because it increases the chances of a pupil's failure and also injures, to a certain extent, the best work of the school. Rarely indeed should a pupil be tardy and in no case unless absolutely necessary; for it gives the student a feeling that other matters are of more importance than school and he fails to learn that promptness is a *duty* and one that cannot lightly be passed over. We ask the coöperation of parents in order that both absence and tardiness shall occur as little as possible and never without a good reason.

For the benefit of any parents who may have thought it strange that we require a written excuse for absence and tardiness, we wish to say that we do so merely to know that the parent sanctions the absence and that he may know that his child is in school unless excused by him.

We desire to bring the matter of home study to the notice of parents and will say that, in our belief, an average student ought to spend, at least, an hour and a half to two hours on his lessons outside of school and that if he is not doing so, possibly his work is unsatisfactory. Surely if every parent would, at the end of every sixth week, inspect *carefully* the report cards sent home by students, as to studies, deportment, absence, tardiness, etc., the pupil in his turn would show more interest. If a student's attendance, deportment, etc., are poor, correspondingly is his application poor, and therefore in the same ratio will his school work be poor. The principal will welcome any information or suggestion that may tend to raise a pupil's standing.

Notice is called to our method of marking:

A=90 to 100 per cent. or very good.

B=80 to 90 per cent. or good.

C=70 to 80 per cent. or fair.

D=Anything below 70, or unsatisfactory.

Any pupil getting D in any subject is doing unsatisfactory work and cannot pass in that study. Even if a student does not intend to go to college, he should not be content with simply a "passing" mark, since the services of such a one are not eagerly sought for by the employer of to-day.

It gives me much gratification to report that all the pupils seem to have a very good attitude toward their teachers and their school work. Nearly all appear to be working faithfully and doing his and her best. The young ladies have organized a glee club, the work of which, I believe, speaks well for them and for their music teacher. We have recently organized an athletic association in order to promote and control all athletic sports which the school may choose to enter into and the boys and girls, both, have formed several basket ball teams which are practicing daily in order to develop teams to represent the school against any teams with whom we are able to arrange games. We are trying to encourage the students' interest in all the wholesome activities associated with high school life, and believe that with proper apportionment of time, these can be moderately indulged in without harm to health or interference with so-called "regular work."

Appreciation is due the teacher of music and drawing for the good results obtained. We also, at this time, wish to thank our janitor, Mr. Eastman, our assistant, Miss Clough, and all the teachers of the building for their conscientious work and coöperation; and the superintendent and Board of Education for their support and advice.

Respectfully submitted,

C. H. Walker.

Feb. 6, 1915.

MUSIC AND DRAWING.

MUSIC AND DRAWING.

After Miss Dones left us, owing to the serious sickness of her mother, several attempts were made to find a qualified

teacher to fill the vacancy for the balance of the year. All efforts were unsuccessful.

During the summer, Esther B. Cowden, a Salem normal school graduate, was secured for the position. During the interim, the various teachers carried on the work as best they could. The work could not be systematic, owing to the various standards.

Miss Cowden took up the work in September and has worked hard and faithfully to get the subjects into line again. I am pleased to report that she is meeting with success. Better results will be secured year by year and much more rapidly and satisfactorily if it were possible to retain the same teacher for a long period. It is expensive to change teachers often as it takes time to get the work adjusted to new methods. During the period of adjustment little progress is made.

Miss Cowden spends one day each week at Bartlett Special as did the former teacher.

Miss Cowden's report is appended and made a part of this report.

REPORT OF SUPERVISOR OF MUSIC AND DRAWING.

Mr. A. J. Knowlton,
Superintendent of Schools.

Dear Sir:—The work in drawing consists of color and nature work in the fall; designs, structural work and object drawing during the winter term; with decorative design and flower painting in the spring.

We aim to make drawing of practical value to the pupil. Inasmuch as drawing is the only universal mode of expression, it is well that the children should be able to interpret art in its highest forms.

Drawing is of use to the child in many ways. First, it gives the child ability to express himself, although roughly, where words are of little value. Drawing develops in

the child a healthy desire to do things. This is emphasized in structural work. Drawing teaches complete accuracy. It develops a love for the beautiful, taste in home and personal decoration, knowledge of harmony in color, and the use and necessity of design. It is our aim to make the course in our Public Schools do all of these things for the pupil.

Parents and friends interested in this phase of the school work, will be cordially welcomed at the School Exhibitions to be held in the various buildings at the close of the school year.

The work in music consists of the reading of music; the appreciation of good music, and the study of lives and works of great masters. Folk songs portraying the characteristics of the nations are also studied, adding an interest and greater love for the songs of our own country.

We aim sufficient knowledge to enable him to read and enjoy music after he leaves the public schools. Every child can be taught to sing, if instruction is begun in the lower grades and faithfully and patiently continued. Every normal child wants to sing.

In the High School the work consists mainly of chorus work, although some instruction along the line of principles in reading, is given. It would be ideal if each school might possess a Victrola, that the best musical works of all ages might be brought to the pupils. Thus they might learn to appreciate what is most worth hearing.

We are planning in some of the schools to give concerts in the spring. In this way the parents may best judge for themselves the character of the work we are doing.

I wish to thank the teachers, principals, and superintendent for their help and coöperation, and also all those who have received my work in so cordial a manner.

Respectfully submitted,

Esther B. Cowden.

SPECIAL SCHOOL FEATURES.

The schools in different parts of the town have had special exercises of one kind or another,—some to commemorate special days as "Thanksgiving," "Christmas" and the last day of school. Some entertainments have been given for which an admission has been charged to raise funds for some special enterprise.

Home garden contests were conducted during the summer in some sections of the town under the direction of the local granges. The number of products in the contests were increased, also the number and size of the prizes. Pequawket grange had a public exhibition of children's garden products, flowers and canned goods, also with them various other articles which they had made.

Beginning with the sixth grade, the schools should offer some instruction in agriculture, manual training and domestic science. These are live and vital topics and of great educational value. They will aid much in making our school curriculum spell efficiency. With our present curriculum, there are some children who are not reached because in our narrow curriculum there is nothing that functions in their lives. Shall we not make an effort to educate all the children of all the people?

SUPERINTENDENT'S TIME.

I have attended two county teachers' institutes, taking part in one at Tuftonboro, one state teachers' association, two meetings of superintendents at Plymouth, conducted two state teachers' examinations, taken three courses in education at Dartmouth Summer School and have made 537 visits to the schools. My time is divided as follows: 5/8 to Conway, 1/8 to Madison, 1/8 to Bartlett Town and 1/8 to Bartlett Special.

My reading and study has been along the lines of recent investigations made through educational surveys in various parts of the country. The best of these products I have endeavored to give to our schools through the teachers.

I am studying the attendance problem in our schools and seeking through the coöperation of teachers, pupils and parents to raise the percentage of attendance. Teachers' meetings have been held in the villages for instruction and discussion of educational topics. The assistance in solving problems in the one room rural schools has been given at the time of my visit. This seems to work out to the best advantage of all. The rural schools have not been visited as often as the village schools. This has been impossible owing to the location and distance. The needs of these schools are not so great owing to the size of the classes.

ATTENDANCE.

The cost per pupil per day is $.178 which does not include the permanent repairs but every other expense. The time actually lost by all pupils for the year ending July 15, 1914, not including legal holidays and days on which schools were closed on account of bad weather, is 7427 days, or reckoned on the average membership of all schools, it is a loss of seventeen days per pupil. The days lost have the same financial value as the other days to the district. That is, the district is paying $3.026 for each pupil for which there is no return or $1,322 for the whole district in the one year.

The absences for the fall term 1914 amount to 2,150 days. If these be figured at the same cost per day as last year, the loss for this one term is $382.70. Some of this lost time is due to weather conditions but most is due to avoidable causes if one is allowed to judge from excuses rendered.

Besides the financial loss to the district, there is a loss to the child which cannot be made up in spite of the fact that parents and pupils think they can make up lost time. This is not all, for when absent pupils return to school, they hinder the advance of the whole class and demand more than a just proportion of a teacher's time. It is true that some of the absences must occur, owing to sickness, but the time

lost should be reduced to the minimum for each pupil and this will in turn reduce the aggregate.

A careful study of the registers and plotting of the attendance shows a greater loss, especially in the lower grades, after the approach of the cold winter weather. This seems to point toward an economic desirability for summer terms with the long vacation in the cold, bad weather of winter.

The number of tardy marks for the year ending July, 1914, were 1133. This is far too many. The number tardy for the fall term, 1914, is 672. It would seem that if a child is able to attend school, he should be there on time. School going should be made a business for the children and they should be taught that they must not be late to their work.

STATISTICS.

Population of town,	3,460
Number of children between five and sixteen,	559
Boys, 313; girls, 246.	
Number of different pupils registered, Sept. 30, 1914,	490
Number of different schools maintained,	15
Number of one-room schools,	4
Average membership of one-room schools,	75.07
Number of elementary schools in which assistants to regular teachers employed,	2
Aggregate number of all weeks below high school,	536
Number of weeks in high school,	36
Average length of all schools in weeks,	35.73
Aggregate number of days lost by reason of holidays, institutes, bad weather and other causes,	85.5
Greatest number of weeks in any school,	36
Least number of weeks in any school,	34
Number between five and eight attending school,	109
Number between eight and fourteen,	311
Number between fourteen and sixteen,	63
Number over sixteen,	7

Average attendance of all schools,	398.167
Average absence of all schools,	39.916
Average membership of all schools,	438.083
Per cent. of attendance of all schools,	91.48
Number of pupils not absent or tardy for the year,	20
Number of cases of tardiness,	1133
Number of tuition high school pupils,	5
Number of pupils for which high school tuition is paid,	18
Number of men teachers (elementary),	2
Average salary per school month of men teachers,	$50
Number of different women teachers employed,	24
Average wages of women teachers per school month,	$46.32
Number of changes in teachers during the year,	6
Number teaching for the first time,	4
Number of teachers with no education beyond the common school,	1
Number of graduates of high school but no higher,	2
Number of normal school graduates,	17
Number of college graduates,	4
Number holding N. H. state teacher's certificates not normal graduates,	2
Number of special teachers,	1
Number of official visits made to all schools by members of school board,	25
Number of visits by superintendent,	537
Number of visits by citizens,	579

CONCLUSION.

Retrospection reveals the facts that advances have been made during the past twelve months but in some cases not as rapidly as we expected while some of the hoped for things have not yet materialized.

Let us strive for some, if not all, of the following special features for the next school year holding fast to that which we now have: Manual training from the sixth grade for the boys and domestic science for the girls, and medical inspection.

I wish to take this opportunity to express my appreciation of your loyal and cordial support, and of the coöperation of the parents and teachers in making the school work a success.

Respectfully submitted,

ALONZO J. KNOWLTON,

Superintendent of Schools.

February 6, 1915.

FINANCES.

Report for fiscal year ending February 15, 1915.

REVENUE.

CURRENT.

1.	Balance from last year,		$1,071.25
2.	Amount required by law,		5,347.50
3.	Additional amount voted at school meeting, 1914,		4,700.00
4.	Amount assessed for school books and supplies,		850.00
5.	Amount assessed to pay high school tuition,		1,000.00
6.	Amount assessed to pay for flags and appurtenances,		00.00
7.	Amount assessed for salaries and expenses of district officers,		225.00
8.	Amount of literary fund received Dec., 1914,		331.98
9.	Amount received from state treasury,		
	For district supervision,	$ 515.62	
	For support of schools,	1,182.76	
	For high school tuition,	54.90	
			1,753.28
10.	Income from local funds applied to support of schools,		9.40

11.	Amount received from dog licenses, April, 1914,	143.45
12.	Amount from other sources not included in above,	711.21
	Total revenue for current expenses,	$16,143.07

EXTRAORDINARY.

13.	Balance from preceding fiscal year, repairs, etc.,	$1,800.00
14.	Amount raised for repairs and remodeling, 1914,	300.00
15.	Amount raised for building, including sites and furniture,	9,500.00
16.	Amount raised for any other purpose than current,	00.00
17.	Total extraordinary revenue,	$11,600.00
	Total revenue,	$27,743.07

Expenditures.

CURRENT.

Amount expended for books,	$ 353.34
Amount expended for scholars' supplies,	299.22

H. B. Cotton,
Auditors.

REPORT OF NORTH CONWAY SPECIAL REPAIR COMMITTEE

To the Citizens of Conway:

Your committee, appointed to expend the money appropriated several years ago for the North Conway school building has performed its duty and begs leave to submit the following report:

Before undertaking the changes, the committee made a plan of the building showing the location of closets, boiler, pipes, radiators, etc. The plan was submitted to an architect who went over it and also made two visits to the building. He then made a new plan and specifications for the changes necessary to put the building into a satisfactory condition. The plan and specifications were submitted for bids and the award was made to Mr. E. S. Thompson for $1,700. The committtee went just as far as was possible with the funds at its disposal looking to a completed and satisfactory whole at some future date.

The plans and specifications made by the architect have been purchased by the committee and are now the property of the district.

A tubular boiler of sufficient capacity to heat the whole building, in case it should ever be used, also sufficiently large to carry a ventilating system was installed. The basement has been cemented, partitions changed, eight flush closets, a slate urinal and wash bowls have been installed. The plumbing and radiation have been changed to make a perfect working system in every particular.

The committee recommends the following: That a sufficient sum be appropriated to install a system of ventilation, to fix up the grounds and to finish off a small room in the tower for a primary recitation room.

Arthur H. Furber,
John E. Potter,
Alonzo J. Knowlton,
Committee.

REPORT OF SCHOOL BUILDING COMMITTEE

Mr. Moderator and Citizens of the School District of Conway:

Your special committee appointed at the annual school meeting held March 14, 1914, under article 9 of the school warrant, to erect and equip a school building at Conway Center, consisting of Walter E. Garland, chairman, L. C. Prescott, George Petrie, Leslie Hill and Alonzo J. Knowlton, has performed the task assigned it and begs leave to submit the following report:—

On March 21st, the committee organized with W. E. Garland, chairman and Alonzo J. Knowlton, secretary and treasurer.

Mr. L. C. Prescott resigned from the committee soon after the first meeting.

After discussing the needs of a new building, it was decided to erect a four-room building all on the ground floor with a cemented basement under the whole structure, hall to pass through the center with exits at either end of the hall, two openings from each room into the corridor, coat rooms in the corridor, steam heat, ventilation, flush closets and sanitary drinking fountains if possible.

Plans and sketches were secured from several sources and two architects were interviewed who made plans for a building according to our suggestions. The committee finally decided upon the plans of Ashton & Huntress, Lawrence, Mass.

Bids in accordance with the plans and specifications of the architect were received from S. D. Morgan, Lisbon, N. H., J. W. Burrowes Co., Portland, Ralph Tilton, Methuen, Mass., and A. R. Ward, Intervale, N. H. Four other parties figured on the building,—two at North Conway, one at Conway and one at Fryeburg, but knowing the appropriation would not submit bids. A. R. Ward's bid being the lowest, he was requested to meet the committee and architect to

consider some changes to reduce the cost of the building. The building was awarded to Mr. Ward for $7,750.

The question of location came up owing to the location of the old lot and the difficulty of drainage. Two architects looked over the lots and said that they would not guarantee the satisfactory working of flush closets on the old lot and if we placed the building there out buildings must be used. This the committee did not wish to do. All the available lots, that were suitable, were considered as to drainage, location, grading and water supply. To get an expression of the people that the building was to accommodate, a meeting of the citizens was called with the building committee in the town hall. Mr. J. H. Garland was elected chairman. The object of the meeting was outlined and all conditions stated fairly. After some discussion, it was voted that the meeting instruct the building committee, as far as it had power, to change the location of the proposed school building to the Lamson lot, so called. After consulting various citizens in different sections of the town and the board of health, the committee decided to place the building on the Lamson lot. The building erected is modern and up to date in all particulars. The lighting is unilateral. The windows have double run sashes with a glass surface equal to one-fourth the floor space. The heating plant has a tubular boiler of sufficient capacity to heat the building in the severest of weather. The gravity system of ventilation is used. The pupils' desks are single and adjustable. The blackboards in all the rooms are of slate and placed at heights to correspond with the grades. There are flush closets and sanitary drinking fountains. The water supply comes from a well and is stored in a pressure tank which is kept full by an automatic electric pump. The sewage is cared for by a cess-pool. The building was accepted by the committee December 21, 1914.

The total cost of the building as it now stands with equipment is shown in the following financial statement:

Financial Statement

Assets

Insurance on burned building,	$1,500.00	
Appropriated by the School District,	8,000.00	
		$9,500.00
